

April 26, 2010

Daniel T. Buckley

Senior Campaign Finance Analyst

Reports Analyst Division

In response to the March 31 letter (received here April 5) we have corrected the beginning cash balance for the February monthly report that reflects activity in January 2010.

We have also corrected the totals listed on lines 7, 21(b), 21 (c), 3 and 32 that were incorrect as a result of the incorrect beginning cash balance.

The error was clerical in nature, as the beginning cash balance was inadvertently not entered.

Our federal PAC has been effectively dormant since 2008, with the exception of rare unsolicited donations or regular bank charges.

Our staff who worked with the FEC reports for years are no longer with us, so we have new staff working with those duties. We are reviewing our procedures and files to ensure accuracy of our reports.

Today, Dan Wood (Washington Farm Bureau) had a conversation with Daniel T. Buckley (FEC) to inquire about training resource and communication. Mr. Buckley indicated that training guides are online and that communication with him should be via telephone or the online form Miscellaneous Electronic Submission (Form 99). There is no email address or street address provided for communication.

Thank you for the telephone conversation and the suggestion of the online filer guidance.
